

INTERNATIONAL ROW.

The Mate of the Iroquois Uses
a Pistol.

A FIGHT BETWEEN SAILORS.

The Mate Fired Several Shots Over
Their Heads—Locked Up by the
Police—Appeal to the Bennington.
Men were Released on Bail, etc.

Shortly after the midnight hour Saturday, two sailors of the ship Iroquois—John Johnson, a Swede, and Charles Bell, an American—went aboard their vessel ostensibly for the purpose of going to bed. They had been allowing themselves too much freedom with the bottle and found, when they got aboard, that they did not care about retiring. They decided to waken the cook and did so to good effect. The story runs that there was a fight between the cook and the men. At any rate the mate of the ship heard some noise in the vicinity of the cook's cabin, and, rushing out, found the two sailors together.

The story of the men is to the effect that, after swearing at the American sailor, he turned and hit the Norwegian over the head with a bottle and then pointed his revolver at him.

The American threatened to call the police and started for the police station, followed by two shots from the mate's revolver.

As soon as the American sailor arrived at the police station Captain Parker was telephoned for and came down shortly afterwards.

At about 1 o'clock Captain Parker went aboard, but found all signs of disturbance gone. His story runs as follows:

"When I went aboard everything was quiet. Asking the watchman about the mate, I was informed as to the locality of his cabin. Before I could reach it, the mate appeared and asked me what was wanted. I saw a revolver on his bunk and asked him if he had done any shooting and, if so, at whom. He replied that two of his men had come aboard drunk and had created a disturbance. Their unruly manner had been the cause of his action. He spoke as if he had perfect right to shoot or do anything else. When I told him to come along to the police station he remonstrated."

The wounded Swedish sailor had hidden himself away after the attack of the mate, but made his appearance upon the arrival of Captain Parker. He, the mate and the American sailor were locked up.

Shortly afterwards the captain of the Iroquois arrived at the police station and made complaint about the arrest of the mate, at the same time demanding his release.

He and Captain Dabel of the Aloha then went to the Inter-Island wharf office and telephoned to the U. S. S. Bennington. The answer was received that the matter would be attended to in the morning. The same answer was received from the Deputy Marshal. Sunday morning the mate was released on his own recognizance, while the two sailors, the complainants, were allowed the freedom of the station house yard.

Another story regarding the arrest of the mate is to the effect that the police authorities pulled the mate out of bed and made him go along to the police station without shoes, stockings or the requisite amount of clothes, after the disturbance had been over for some time.

Emma Square Concert Tonight.

The moonlight nights are on and although the moon will not rise until after the band concert at Emma Square tonight, still the riding and driving afterwards will be a fit climax for such a delightful program as the following:

1. March—"Imperial City"
2. Overture—"Fra Diavolo," Auber
3. Finale—"Carmen," Bizet
4. "Reminiscences of Verdi"
5. Medley—"Italian Melodies"
6. Waltz—"Paradise of the Pacific"
7. Fantasia—"Darkies Dream"
8. Polka—"Nuuanu Valley"

Hawai Poni.

Historic Beer Drinkers.
Among the Egyptians, Greeks, Romans and Athenians beer was made

from barley, while in Spain and Britain wheat was used for malting. Tacitus in the first century said that beer was the usual drink of the Romans and the soldiers of Caesar introduced it into Britain. Pabst beer was not known at that time, but in this latter part of the nineteenth century it stands pre-eminently at the head. W. C. Peacock & Co. are the agents, and the cooling draught can be procured at the Royal, Pacific and Cosmopolitan saloons.

The Kindergarten Club.

What charities and benefits the people have all patronized the past month! Their name has been legion, and every class and club has had a veritable struggle for existence. But the kindergarten club has survived. It may be that some persons entertain doubts of its vitality, but they have only to attend the regular 3 o'clock meeting at Queen Emma hall this afternoon to judge for themselves. The members of the club will have a cordial welcome for all, and Mrs. Dumas will give an interesting talk on the second gift—the sphere, cylinder and cube.

Letters."

JOS. M. OAT,
Postmaster-General.

General Postoffice, Honolulu, February
29, 1896.

There is a Time

For everything. And NOW is the time to break up your ground for
planting cane. Planters, after trying other kinds of breakers, have come back
to the **Hall Breakers** as being the **Best Kind in Use**. We have
sold a great many within a few weeks, but still have on hand a few
12, 14 and 15 inch. We also have a few more of the celebrated

Hall's Furrow Plows:

No plantation is fully equipped without one or more of these. We have
in stock a few of the **WHEEL WALKING SINGLE PLOWS**. This is the best stir-
ring plow ever introduced here, and has fairly revolutionized the cultivation
on some of the Hilo and Kau plantations. **TRY THEM!**

Also, Hall's Steel **SIDE HILL BREAKERS**, for use on hilly ground,
and in use on many of the plantations in places where a steam plow or ordi-
nary breaker will not work.

A number of years ago we introduced
from Philadelphia the "Planet Jr. Horse
Hoe," and have sold hundreds of them
all over the Islands. It is one of the best
cultivators ever used on a plantation. We
are selling a great many now, and have
a few left. Now is the time to use them.
Constantly on hand all sizes of

Rice Plows, Harrows,
Buckeye Mowers,
And All Kinds of
Agricultural Implements.

The Aluminum Cane Knife

That we have this year introduced has had a wonderful success. We got
entirely out, but have just received a new lot. Read this letter:

MESSRS. E. O. HALL & SON, Honolulu. MANA, KAUAI, January 30, 1896.

DEAR SIRS:—Regarding the aluminum cane knives which you sold us some time
ago, allow us to state that same have given us the utmost satisfaction, and we think
them superior to any cane knife we have used. The knives are light and durable, and
keep a very good edge. The handles are also a great improvement, and are well
shaped for Japs. Our men always try to secure an aluminum knife in preference to
others, which we think the very best recommendation. We remain,

Yours truly, H. P. FAYE & Co.

We have received other letters just as commendatory.

The TROPIC OIL

For Engine and Cylinder meeting with great success. We thought
we had enough to carry us through the season, but have got entirely out.
We are expecting a new supply, however, any day, and can supply any
orders that may come in, besides some now on our books for delivery.
The "Tropic" is a Very High Grade Oil and
has given perfect satisfaction where it is being used.

E. O. HALL & SON.

CORNER FORT AND KING STS., HONOLULU.

Will you walk into my workshop?

Says the Woven Wire Man;
You may not have much time to stop,
Yet, enough to see the plan
Of a clean bed

To lay your head
Upon.

You can't keep clean a bed of wood;

Then get a Bed of Iron.
Fit it with "Duplex" Wire you should,
For that's the bed to lie on.

No bugs or fleas
You then will tease—
Not One.

An iron bed enameled white,
Or done in black and gold,
Suited for ONE that's not too light,
Or TWO, now the weather's cold,
Of four hundred pounds,
May be found,

And More.

Woven Wire Bailey

Makes Iron Beds of good
quality at a Low Price,
and makes Wire Beds, too.
